BRIEF DESCRIPTION ABOUT THE PROGRAM:

This special talk on changing trends in women's health and fitness the topic was very suitable to this event. They aware the all women staff and students health is important for us and help us remain fit. They told precaution is better than cure. They give us some special tips to live healty life Women's health and fitness trends are constantly evolving to meet the changing needs and preferences of women. Some current trends include:

1. Personalized Fitness Programs
2. Online Fitness Communities
3. Mind-Body Wellness
4. Technology Integration
5. Sustainable and Eco-Friendly Fitness

Women are increasingly seeking personalized fitness programs tailored to their individual goals, preferences, and body types. This includes personalized workout routines, nutrition plans, and lifestyle recommendations.

Online Fitness Communities With the rise of social media and digital platforms, women are connecting with others who share similar health and fitness goals. Online communities provide support, motivation, and accountability, making it easier for women to stay on track with their fitness journey.

Women are embracing wearable fitness trackers, mobile apps, and virtual reality fitness experiences to monitor their progress, track workouts, and stay motivated. These technologies make it easier for women to stay engaged and accountable in their fitness routines.

These trends reflect a shift towards a more holistic approach to women's health and fitness, encompassing physical, mental, and emotional well-being, as well as a greater emphasis on inclusivity, sustainability, and personalized experiences.

There were around 50 Students and 50 Women Staff benefited from this Programme.
